About Weston House

The home is a large three storey building which dates back to Georgian times.

Attractive architectural features include wood panelling, a stained glass window and a striking main staircase. There are three communal lounges, a conservatory and two dining rooms. The building has been sympathetically converted and retains its large elegant rooms with high ceilings.

There is lift access to the upper floor. To the rear of the property is a small garden which provides a lovely outside space for the use of residents. The home is within easy walking distance of local shops and other amenities for residents wishing to get out and about.

Weston House prides itself on its friendly and professional atmosphere. We also cater for day-care.
